

DECEMBER 20-21, 2008 WINTER SOLSTICE ALLNIGHTER

JOURNEY INTO THE DARK

The Winter Solstice
is a time of
hibernation and depth,
a fruitful darkness.

Come move,
sound, breathe,
and slow down
into Silence,
into Stillness,
into the
pregnant Void.

Sense the seeds
that are gestating
in this time of
evolutionary change.
What is growing in
your heart and soul?
How are you being
called by these times?

DREAM THE NEW LIGHT

From this womb
full of fertile seeds,
receive the new
cycle of potency
that is unique
to this moment of
personal and planetary
transformation.

At the time of this
Great Turning,
we gather to offer
gratitude and to
celebrate the return
of the Sun.

We open to the
transmission of the
new Light, and
re-emerge into a sacred
flowering in this Life.

Our Winter Solstice allnighter includes meditative presence, deep Continuum dives, sleeping and dreaming throughout the night. The Solstice occurs at 4:04am. We will create ceremony to enter the Mystery as we join those—visible and invisible—all over the earth who tend the indigenous soul and beauty of this world as we enter the New Year.

MALCOLM GROOME, Continuum teacher and shamanic practitioner, teaches workshops and retreats in the United States and Europe. He seeks to bring to others a sense of the Great Mystery and a greater degree of Presence in their lives and in their bodies.

SUSAN HARPER, Continuum Movement teacher, developer of Em'ceans and Sensations Trainings, and with Hubert Godard co-develops Portals of Perceptions. She invites us to listen to our wholehearted listening body, and to deepen our creative conversation with life.
